PORTABLE CURVE DRAWING FREQUENCY METER KOLAR GOLD FIELDS.

GENTLEMEN,

I write to request you to be so good as to intimate your best present day price and the earliest time of delivery for the frequency meter described below :—

*One* Portable Curve Drawing Frequency Meter, suitable for use on 110/115-volts, 25 cycle circuit, with chart-carriage and spring clock-driven machanism for recording the variations in frequency of from 22·5 to 27·5 cycles.

The instrument should be equipped with clock work mechanism for eight days' running with one winding and provided with a device to start or stop the clock as and when required. The instrument should be free from errors due to variations in voltage, wave-form and tempearture. The instrument should be shielded against the effect of stray fields. The instrument should have a dust-proof casing and be provided with a leather case.

The chart should be capable of easy examination at any time without being removed from the instrument and should have two chart speeds of 3″ per hour and 3″ per minute with a speed changing device.

The instrument shall have an accuracy of not less than that of the B.E.S.A. Specification No. 89. However, the tenderers should quote the guaranteed accuracy of the instrument they could offer.

The price of spare record rolls necessary for one year should be quoted separately.

Complete specifications and descriptive literature of the instrument offered should accompany your quotation.

The price to be quoted should be for delivery c.i.f., Madras.

Your quotation may be sent so as to reach this office on or before the 22nd September 1937.

---
